

Key Features Checklist

Core Business Functions

- ✓ **Sales & Marketing** - Set tariffs, create sales quotes, manage customer data.
- ✓ **Finance** - Handles job costings, invoicing and financial management.
- ✓ **Accounting** - Interfaces with Sage, Xero, Quickbooks and many more accounting packages.
- ✓ **CRM** - Generate letters and emails and track communication with customers and suppliers.
- ✓ **Document Management** - Go paperless with complete document management and filing.
- ✓ **Reporting** - Tailor system generated reports to your requirements.

Industry Specific Functions

- ✓ **Air Freight** - handles direct shipments, consols, IATA shipments, back-to-back shipments, handovers and co-loads, and allows you to manage AWB stocks.
- ✓ **International Road Freight** - caters for both full trailer loads and groupage consignments.
- ✓ **Sea Freight** - manage small-scale shipments right through to large consignments including FCL and LCL cargo and multiple-container consolidations. Fully handle multi-container bookings.
- ✓ **Liner Agency** - take cargo bookings, arrange transport, manage vessel allocation and manifesting, produce bills of lading, organise cargo release and collect charges.
- ✓ **Ships' Agency** - manage the details of a ship's visit to port, including the financial transactions and communications involved.
- ✓ **Courier Shipments** - handle courier bookings including documentation, costing and invoicing.
- ✓ **Domestic Transport** - manage local collections and deliveries using your own and/or subcontract vehicles. PODs are captured electronically.
- ✓ **Inter-modal Transport** - provides support for sea/rail and sea/air movements.
- ✓ **Equipment Control** - track the number and location of containers and trailers as well as managing your equipment stock.
- ✓ **Transit Warehousing** - controls warehouse receipts and allows you to manage temporary storage of cargo.
